After 18 months you can ask us to migrate your website to an individual account with our Hosting and Domain provider, in case you want to have control of it yourself or if you want to hire another service that manages it. You can also continue with us so that we do the management of maintenance and changes on your website if you are happy with our service. Do not forget that you have a 12-month commitment with the third-party Hosting provider, we give you 6 months for free, and from then on you have to pay for the service monthly so that your website is active and so that you comply with the contract. We will provide you with the data or online payment link/button so that you can fulfill your obligations towards your website and that it is always active and that you fulfill the commitment acquired.

How do I hire the service, how do I pay, will you give me an invoice?

1. Make the payment. You have 2 ways to pay:

a. Payment securely from **our website** or **from here** (we work with Stripe, the most secure and recognized online payment gateway in the market). You can pay with a debit or credit card...

One-Time Payment with Card [Spain or from anywhere]

[Spain Only] Payment in 2 Parts | [Start] 1 of 2

[Final] Part 2 of 2

b. You can make a transfer or deposit to the following bank account:

- BBVA Spain Account

IBAN: ES6901820174160201692712

Beneficiary: Angelo C. Du Bois Gonzales O.

SWIFT Code: BBVAESMM (code only for payments from outside the European Union).

3. It will take you 45 minutes to 2 hours, have a good coffee and answer in detail, this depends on your website looking the way you want it and being oriented to your needs and good results.

Online Form + Contract

If you can't clic the buttons, please contact us to provide you with the links.

* If you decide to **download the Form in PDF**, either because you prefer it that way or because you had some problem with the online Form, you can **fill it out**, click on the **printer icon (print)** when you have finished, and click on **save as PDF**, so you can save the document with your answers as a local file and **send it to us by email or Whatsapp** 👍

4. Once the payment is validated and the duly completed Form/Contract is received, we will begin working on YOUR website 😊👨🏻‍💻👩🏻‍💻

About the payment receipt and taxes, **we issue an invoice without any problem** if required, otherwise a sales ticket is issued. With this invoice, your company can deduct the expense in its tax return. FOR THE MOMENT we do not charge VAT/VAT or other taxes. **The explanation for this is** that while ADB Studios is in Madrid, we are still in the administrative process of resolving some bureaucratic details before registering fully in the country as an SL company. So, how do we operate? ... Totally legally and validly. Simple, ADB Studios also exists in the country of Peru, and we have professionals in the studio in Lima who will work on your website, under the supervision and quality control of the new headquarters in Madrid. Since there is a Double Taxation Agreement between Spain and Peru, this allows us to operate without any problem, as our declaration is being made in Peru until the administrative issue is resolved, and, being a digital production service developed in Peru finally, no tax is declared to the Treasury in Spain, and therefore any country in the EU, and the rest of the countries, are exempt from paying tax for this service.

It is a provisional and legal measure, but it works in your favor, as you save on paying taxes and we still give you an invoice and you can deduct the expense without any problem. Once resolved in the coming weeks, if you are in the EU and you hire the service, we will charge the corresponding tax (VAT/VAT).

In short, we give you an invoice, you can deduct the expense of having created your website before Hacienda or the tax authority of your country, you do not pay tax and, therefore, you cannot deduct it, because you are not paying it. If you are reading this it means that you are going to hire the service under this provisional and beneficial modality for you.

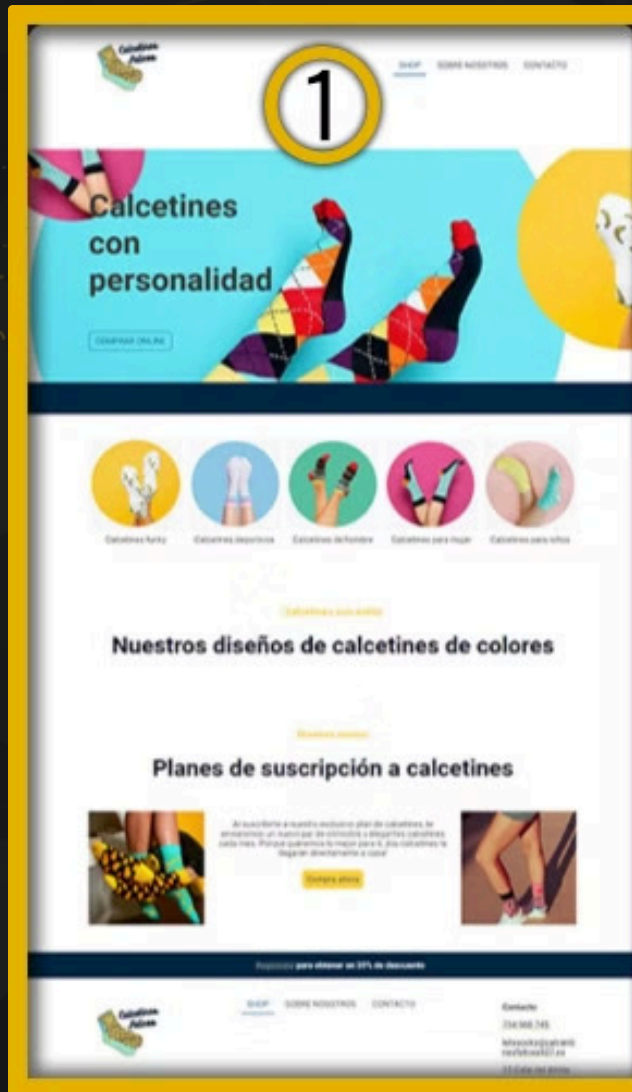

What information do you need from my brand/business to start working on MY website?

1. 📝 You have probably already entered the Form + Contract (both in one form) or downloaded it. If you haven't, scroll up a little, click the corresponding button, and enter or download it. In this form you will find some questions about your brand/business/services/products and your target audience, so we know exactly what to put on your website, both visually and textually, and where to direct the focus of it. Once you are done, don't forget to let us know by email or Whatsapp so we can keep track and review. Make sure the answers have been saved in the form.
 2. 📁 You must send us the images (we advise you to do so with [wetransfer.com](https://www.wetransfer.com) and not by Whatsapp so they don't lose quality) in the best possible resolution, the files, and the links to the YouTube videos that you want us to put on your website. **Important**, the delivery time starts when we have the completed Form to our satisfaction and in its entirety, and the multimedia files and links, without that we cannot start the work, so we ask you not to delay in filling out and sending the respective information.
- 🔍 Any missing images and videos, if you don't have them, we will look for and use high quality stock images. In some very specific cases, if we can't find what we're looking for, we will generate images or videos created with AI 🤖. We will write names for your images and videos with keywords to increase SEO impact and get them to rank better in Google
